COX

Small Business Monitoring

KNOW WHAT HAPPENS IN YOUR BUSINESS

Advanced solutions from Cox make it easier for you to monitor your store for traffic and any emergency situations, such as flood or fire.

COX ADVANTAGES:

COST
With no need for extra equipment and wires, our solution is affordable.

REAL-TIME DATA
Information is real-time and actionable

EASY INSTALLATION
The solution is almost effortless to install in your office or store

LONG LASTING
Cox sensors are long lasting, so no need to replace batteries for 5+ years

HIGHLY SCALABLE
Adding additional sensors is as easy as turning one on.

ALWAYS ON
The solution is always on and always capturing useful information

Join the exploding IoT revolution with **Cox.** No need for messy wires or hubs. Connect sensors / devices anywhere in your business and be instantly connected and in the know.
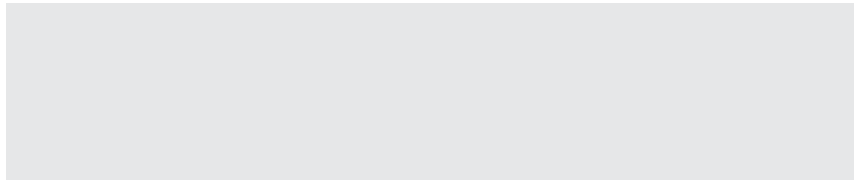

FLOOD AND FIRE SENSORS

MOTION SENSORS

ASSET TRACKING

SOLUTION

Rely on a global leader in connectivity and media distribution. Cox Communication sensors monitor your store or office throughout the day and night, and will alert you and the appropriate parties in case of emergency or abnormal behavior.
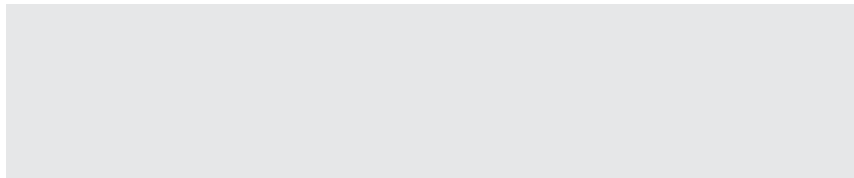

HOW OTHER COMPANIES & SERVICES ARE BENEFITING...

Aging in Place lets people keep an eye on aging love ones, including monitoring prescription adherence.
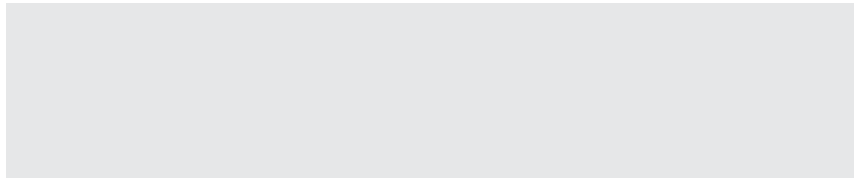

IoT by Cox brings low cost data gathering, real-time location tracking - a real lifesaver.

Small Business Associations are now able to monitor the health of individual businesses and websites, including traffic insight.

Cox IoT brings technology to life: Flood Detection, Motion Detection, Assett Tracking

Tank Level Monitoring helps track levels and usage from a remote location 24/7, all by matching wireless technology with monitoring software.

Includes pressure monitoring, float monitoring and even radar.

DRIVING THE INTERNET OF THINGS

COX IoT COMPARED TO BLUETOOTH/ZIGBEE...

- **RANGE**: LPWAN brings longer range IoT solutions
- **EFFICIENCY**: Lower battery output via long-lasting sensors (2+ years)
- **SIMPLICITY:** No hub needed

COX IoT COMPARED TO WIFI/CELLULAR...

- **PRICE:** LPWAN costs far less
- **BATTERY:** Lower output for longer-lasting sensors (>2 years)
- **EASIER:** No hub required
