

## SMART, SAFE, CONNECTED: Decontamination and Hygiene Tracking for Anything

- Rotating quartz plate and reflective internal surfaces deliver a thorough, shadow-free UVC coverage for complete decontamination of any object.
- RFID-tagged objects immediately transfer hygiene information to the Cleanbox web portal so you can track the hygiene status of any device, from anywhere.
- Internal camera allows users to observe decontamination cycle.

Cleanbox products are RoHS and REACH compliant and manufactured and assembled at ISO 9001 certified facilities. Products meet all environmental, CE and FCC regulations.

## OmniClean ONE SHEET HOW UVC DESTROYS VIRUSES

*UVC destroys viruses & bacteria by disrupting their DNA or RNA, preventing mutation.*

### SPECS

- Independent lab testing at a Biohazard Level 3 lab found that Cleanbox UVC Engineering consistently kills 99.999%+ of all SARS-CoV-2 (COVID-19) virus on object surfaces in 1 minute.
- Runs from all power sources, or with a battery pack
- 10" h x 13" w x 14.5" d - 25lbs
- 25.4 cm h x 33.02 cm w x 36.83 cm d - 11.3 kg
